JOURNAL OF FOOD, AGRICULTURE & ENVIRONMENT

WFL Publisher
Science and Technology

Vol. 2, No. 2  ISSN: 1459-0255  April 2004

General Information

Aims and Scope: The Journal of Food, Agriculture & Environment publishes peer-reviewed original research, critical reviews and short communications on food science and technology, agriculture, animal science, human nutrition or human health, with particular emphasis on interdisciplinary studies that explore the intersection of food, agricultural, and the environment. The journal also considers a limited number of relevant scholarly manuscripts addressing ethical or socioeconomic issues related to modern agricultural and environmental sciences. The Journal offers advertisement space for special announcements.

Editorial Board

Francisco Artes Calero (Spain)  Catherine Barry-Ryan (Ireland)
Andreas Klieber (Australia)  Masayuki Hojoto (Japan)
Gary J. Pickering (Canada)  Kong-Hwan Kim (Korea)
Pervin Basaran (Turkey)  Limus U. Opara (Oman)
Christian Larroche (France)  J. Buyse (Belgium)
Constantinas Kitosas (Greece)  Frank Devlieghere (Belgium)
K. Ravindranthan Thampi (Switzerland)  Seiichi Oshita (Japan)
Clément Vigneault (Canada)  M. Ashraf (Pakistan)
Ganam Abdel-Nasser Khalil (Egypt)  Hiroshi Gemma (Japan)
Jong-Bang Eun (Korea)  Sahab Bidawid (Canada)
Virginie Amillien (Norway)  Tom J Sauer (USA)
Badal . C. Saha (USA)  C. P. F. De Lima (Australia)
Quirien Van Oirschot (Norway)  W. Pfannhauser (Austria)
David Tay (USA)  Dr. E. Fallou Guèye (Senegal)
E. M. Abou-Fakhr Hammad (Lebanon)  Rong Cao (Canada)

Abstracting: JFAE is abstracted in Chemical Abstracts - CAS, Apic abstract, IFIS, FSTA and under process with ISI, CABI etc.

Advertising: Inquiries and correspondence regarding advertisements or announcements should be sent to World Food Rd Ltd. Meri-Rastilantie 3 C, FIN-00980 Helsinki, Finland. Tel: +358 9 75 92 775 or +358 50 505 11 35, e-mail: info@world-food.net.

Subscription: Orders are accepted on a prepaid and calendar-year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Please find subscription rates and ordering details in detachable form included in every issue of the Journal, or request from the editorial office: (email: Editorial@world-food.net).

Important Note: If you are not a member of ISFAE yet, please visit our homepage: http://www.isfae.org and register to benefit from special rates when purchasing scientific journal, plus online ISFAE magazine or taking part in ISFAE meetings. Kindly contact ISFAE Secretariat at: isfae@isfae.org

Authorization: To photocopy items for subscribers grant personal use of a specific client. This consent does not extend the copying for general distribution, for advertising or promotional purposes, for creating new collective works or for other enquiries. In such cases, specific written permission must be obtained from the WFL publisher.

Published in Finland

Food, Agriculture & Environment, Vol.2 (2), April 2004
**Subscription Rate**

The Print and/or Online journal of Food, Agriculture & Environment (JFAE)

2004, Volume 2 (4 issues)

*Print ISSN 1459-0255 / Online ISSN 1459-0263.*

One-year subscription rate includes print, and/or online journal. The subscription cost is low compared to many other International Journals. One-year membership of the scientific Journal of Food, Agriculture & Environment (JFAE) will give you access to the print and/or online version of the Journal. For one-year subscription, subscribers will get 4 issues of the Print journal and/or access to the Online journal services (subscriber can read and download full articles).

Subscribers should send us by fax or by email or by air mail the order. Payment should be made either by foreign payment (all charge should be paid by customers) or by Credit Cards such as visa or master cards. (We neither accept cheques nor bank drafts).

Only If you face serious problems in sending the payment, kindly contact us at: Publisher@world-food.net

The International Society for Food, Agriculture and Environment–ISFAE- mission’s is to disseminate news and information and promote science, and technology, it provides consultant service to institutions, companies and organisations.

Aim of ISFAE : The aim of the ISFAE is to bring together scientists and professionals, to stimulate, and coordinate scientific or professional meetings, exhibitions and consultant service on an international scale.

Membership and benefits : ISFAE provides its members with a scholarly platform to share knowledge and information, develop information networks with colleagues who have similar interests and concerns. The main benefit of ISFAE membership is the receipt of its online journal “Agri-Food Research & News” as well as an access to an extra site”Reports & Thesis” with a password supplied only after joining. Members of ISFAE who attend any scientific meeting held under the auspices of the ISFAE at reduced costs and receive conference proceeding or resulting books at discounted rates. ISFAE will arrange each year meetings on issues related to “Food, Agriculture or Environment”, and will provide opportunities for private and public firms, companies, industries or institutes to exhibit their products or materials at its conferences. If you have not joined the ISFAE, now is your opportunity to be updated on current events and news. The annual ISFAE subscription rate is symbolic, to cover the technical costs. The ISFAE invites head of institution, head of department or decision makers to plan local, regional or international meetings or exhibitions. The ISFAE will disseminate the information, invites participants, guides organizers and contributors, and take charge of resulting publication and distribution of the “Agri-Food & Environment” proceeding series, or/and books. With the collaboration of WFL publisher we may plan a special JFAE number. We will offer 20% reduction (to each participant) to purchase the proceeding or the special journal issue.

ISFAE online journal accepts: Popular articles, News and information about ongoing R&D projects, findings/achievements, methodology/technology used in laboratories or fields, newsletters, forthcoming specific courses/lectures, news on meeting, conference workshop, important seminar, training programs or exchange visits, opinions and views, nominations, summary of reports, thesis, events, meetings, instructions and recommendations to farmers/growers, job announcements and employment opportunities, advertisements. For more details please contact:isfae@isfae.org

Subscription Rate: Basic fee plus online journal Agri-Food “Research & News” ISSN: 1459-2029, 2003, Volume 1 (4-8 issues)+extra site “Report & Thesis” and a free access to a Discussion Form.

We Welcome to the International Society of Food, Agriculture and Environment (ISFAE). The value of a professional society such as ours is primarily in the networking opportunities it can provide. Successful networking requires active participation by the members and leadership in organizing networking/interactive events. Since ISFAE is a newly established multidisciplinary society, its success fully depends on our ability to attract and retain members.

The Executive Secretariat of ISFAE, led by an Executive Committee and a Secretary General, which has already created core structures that provide a solid foundation for the Society to flourish and bring members from different corners of the world under its umbrella in the future. The Society now has an impressive web presence (www.isfae.org) and its own scientific journal (the Journal of Food, Agriculture & Environment) as well as a popular Online journal Agri-Food “Research & News” plus a Forum for discussion (Register For Free). We also provide consultant service to farmers/growers, institutions or companies.

To make the ISFAE strong and popular, and give the momentum it deserves, all of us ought to participate in some of the following ways:
- Providing leadership in arranging self-funded local, national and international conferences, symposia, workshops, lectures and/or exhibitions under the auspices of ISFAE.
- Contributing quality manuscripts to our Scientific Journal JFAE (http://www.isfae.org/scientjourn.php) or (Popular Online Journal http://www.isfae.org/isfaemail.php) and encouraging others to do so.
- Promoting ISFAE as a whole, and its different sections, Food, Agriculture and Environment, at conferences, lectures, relevant magazines, journals, network or news papers and within your institutions or associations, to encourage growth in membership.

We appreciate if you can make interviews in local magazines or journals to inform about the importance of ISFAE and the need of the journal. For more details, kindly contact us at isfae@isfae.org

Contact: ISFAE - Secretariat, Meri-Rastilantie 3C, FIN-00980 Helsinki Finland.
Email: isfae@isfae.org / Tel/Fax: +358 9 75 92 775

The promotion of ISFAE is important for all of us. Therefore, we ask that we all consider disseminating the contents of this message through our institutional networks, relevant magazines and journals, or other working groups or professional associations in which you participate. Please communicate with the Secretariat with suggestions on topical issues that could be the focus of possible future conferences and be prepared to play a leading role in managing such events.

We look forward to your full support and strong leadership in achieving a vibrant performance for our Society in the days ahead.

The Secretary General & The Executive Committee
Society of Food, Agriculture and Environment
-ISFAE-

Membership fees in ISFAE is reduced by 20% if you invite 5 or more libraries or departments or individuals to join ISFAE.
Kindly contact us at: isfae@isfae.org
Research on Food and Agriculture is progressively moving towards an interdisciplinary study of sustainable food production to meet the demand of growing human populations. However, as more countries industrialize, there is an increase in air and water pollution, soil contamination, as well as elevated levels of global warming and depletion of the ozone layer. This complex scenario challenges researchers to develop and test more appropriate technologies for sustainable agriculture. Research, for example, is being carried out to overcome problems of environmental stress, minimize the use of pesticides, slow post-harvest storage losses, and explore nutrition, animal science and human nutrition or human health, by using conventional and new technologies such as biotechnology, mutation-assisted breeding and molecular biology.

The Journal of Food, Agriculture, and Environment (JFAE) is dedicated to meeting the need for a new journal that can encompass this wide range of topics and interdisciplinary approaches. JFAE will publish (in print and on-line versions) peer-reviewed original research, protocols, critical reviews or short communications in food science and technology, and agriculture or environment, with particular emphasis on interdisciplinary studies on food, human nutrition, agricultural, animal science or/and environment. For advice or more information, please contact the editorial Office.

The members of the International Society of Food, Agriculture and Environment - ISFAE will receive JFAE at the reduced rate. For more, kindly visit our website: www.isfae.org or contact the ISFAE- Secretariat.

## Commentary

### Are Indian foods from genetically modified crops safe?

R.T. Gahukar

11

## Food & Health

### Pathogenesis-related proteins – An important group of plant-derived allergens

Raina Niskanen and Ramdane Dris

14

### Modified atmosphere improves storage ability, controls decay, and maintains quality and antioxidant contents of Barhi date fruits

K. N. Al-Redhaiman

25

### Texture characteristics of carrots as affected by storage temperature and duration

Peter Alvo, Clément Vigneault, Jennifer R. DeEll and Yvan Gariépy

33

### Characterisation of oil extracted from gourd (*Cucurbita maxima*) seed

I. A. Amoo, A. F. Eleyinmi, N. O. A. Illelaboye and S. S. Akoja

38

### Food security in Nigeria: Institutional support through micro-credit for soyabean production

G. B. Ayoola and J. B. Ayoola

40

### Impact of selenium spray on monocarpic senescence of soybean (*Glycine Max* L.)

44

### Effects of heat treatments on the quality of miniature golden apples (*Spondias cytherea Sonn*) during low temperature storage

Owen S. Graham, Majeed Mohammed and Lynda D. Wickham

48

### Effects of anti-browning treatments on the storage quality of minimally processed shredded cabbage

Roshita Ibrahim, Azizah Osman, Nazamid Saari and Rusly Abdul Rahman

54

### Effect of lactation period on fatty acid profile of breast milk

Lawuyi O. Lalude, Spencer E. A. Torimiro and Joseph B. Fashakin

59

### Studies on antimutagenic effects of citral in mice

Syed Imam Rabbani, Kshama Devi and T. N. Shivananda

62

### External stimulation of anthocyanin biosynthesis in apple fruit

Benjamin Ewa Ubi

65

### The effect of precooling delay on the quality of stored sweet corn

Clément Vigneault, Yvan Gariépy, Dominique Rousse and Bernard Goyette

71

### Influence of rain cover cultivation on taste and aroma quality of strawberries (*Fragaria ananassa* Duch.)

Jens Rohloff, Rolf Nestby, Johannes A. Folkestad and Tor-Henning Iversen

74

### Water sorption isotherms and heat of sorption of cashewnuts pretreated by different methods

K. O. Falade, J. J. Chime and O. S. Ogunwolu

83

### Hypolipidemic effect of some vegetable oils in rats

S.E. El-Gengaihi, A. Salem, S.A. Bashandi, N.A. Ibrahim and S.R. Abd el-Hamid

88

### Comparative evaluation of the nutritional quality of corn, sorghum and millet ogi prepared by a modified traditional technique

M.A. Oyarekua and A.F.Eleyinmi

94

### mRNA cnf1 detection for monitoring viability and pathogenicity in an uropathogenic *Escherichia coli J96* maintained in laboratory seawater microcosm

Denden Ikbel, Mahdouani Kassem, Ben Chibani Jemni and Bakhrouf Amina

100

### Recovery in embryonated chicken eggs of viable but non-culturable *Salmonella*

Amel Dhiaf and Amina Bakhrouf

104

### Optimization of enzymatic liquefaction of papaya (*Carica papaya* L.) and jackfruit (*Artocarpus heterophyllus* Lam.) pulp using response surface methodology

Attar Singh Chauhan, Sadiq Gul Afroze, Mysore Nagaraj Rao Ramesh, Ramesh Yadav Avula, Mysore Narayan Rekha and Ramesh Shyam Ramteke

108

### Photosynthetic pigment profile of *Cordia myxa* L. and its potential in folklore medicinal application

M. Afzal, C. Obuekwe, N. Shuaib and H. Barakat

114

### Effects of processing and salts on some functional properties of cashewnut (*Anarcadium occidentale*) flours

Fagbemi, T. N., Oshodi, A. A. and Ipinmoroti, K. O.

121
Effects of variety and olive ripeness on nutritional quality and oxidative stability of extra virgin olive oils
Marco Esti, Luciano Cinquanta, Gianfranco Panfili, Pamela Manzi, Stefania Marconi and Laura Pizzoferrato 129

Effects of pectolytic enzymes and antioxidants on the quality of dry wines made from pineapple (Ananas comosus L. Merr) peel
Owen S. Graham, Majeed Mohammed, Lawrence A. Wilson and Lynda D. Wickham 135

Microbiological quality of carrots used for preparation of fresh squeezed street vended carrot juices in India
Moushumi Ghosh, Abhijit Ganguli and Sandeep Mudgil 143

Selection of a sweetener and the pectin metoxylation degree for the formulation of a cupuaçu (Theobroma grandiflorum) diet jelly
Agostinho S. Sobrinho, Maria R. L. Borras, João V. B. Souza, Érica S. Silva and José M. Chaar 146

Fate of Salmonella in baby powder milk
Amel Dhiaf, Neziza Chnty and Amina Bakhrouf 149

Effect of salt iodization on the quality of pickled vegetables
Ayed S. Amr and Omar A. Jabay 151

Investigation of acrylamide levels in selected fried and baked foods in Jordan
Hani M. Al-Dmoor, Mohammad A. Humeid and Mahmoud A. Alawi 157

Nutrient distribution in wild and cultivated edible mushroom, Pleurotus sajor-caju
F.L. Oyetayo and A.A. Akindahunsi 166

Agriculture
The relative advantage of agroforestry system over arable crop farming: Empirical evidence from cocoa based agroforestry and arable crop farming systems in Oyo State, Nigeria
R. A. Alabi, A.G. Daramola and I.A. Ajibefun 169

Productivity, technical efficiency and cropping patterns in the savanna zone of Nigeria
T. T Amos, D. O. Chikwendu and J. N. Nmadu 173

Promoting cassava marking in Benue State: Learning from previous experience of agricultural commodity trade by Nigeria and other countries
J. B. Ayoola 177

The role of nitrophosphol on delaying abscission of tomato flowers and fruits

Evaluation of suitable technique and determination of appropriate stage for sampling thrips in rose flowers
P. Duraimurugan and A. Jagadish 187

The effects of arbuscular mycorrhizal fungi and water stress on leaf chlorophyll production of cassava (Manihot esculenta Crantz)
Indiro J. Ekanayake, O. Jacob Oyetunji, O. Osonubi and Omar Lyasse 190

Reciprocal grafting between early maturing and normal maturing olive varieties: Preliminary effects on the nature of juvenility and flowering
Nasir S.A. Malik and Joe M. Bradford 197

Forage legumes for soil productivity enhancement and quality fodder production

Effect of Bion, Amistar and Vitavax on anthracnose of chilli
Md. Khalilur Rahman, Md. Rashidul Islam and Ismail Hussain 210

Grain legumes for soil productivity improvement in the Northern Guinea savanna of Nigeria

Improving labour productivity and technical efficiency in food crop production: A panacea for poverty reduction in Nigeria
S.O. Ojo 227

SWOT analysis of extension systems in Asian and West African countries
O.I Oladele and J.-I. Sakagami 232

On-farm evaluation of some plant extracts as biofungicide and bioinsecticide on cowpea in Southwest Nigeria
O. F. Owolade, B. S. Alabi, Y.O. K. Osikanlu and O.O. Odeyemi 237

Activities of carbonic anhydrase, catalase and ACC oxidase of mung bean (Vigna radiata) are differentially affected by salinity stress
Shabina Syeed and N.A. Khan 241

The control of damages caused by maize weevils (Sitophilus oryzae Motsc) to stored maize grains using cardamon and black pepper
S. B. A. Umoetok 250

Micropropagation in the strawberry (Fragaria x ananassa Duch.) inbred lines
Jadwiga I. Zebrowska 253
Evaluation of some maize inbred lines for tolerance to *Striga lutea* (Lour) in Southern Guinea savanna ecology  
S. A Olakojo  

Performance of newly developed *Striga lutea* tolerant maize genotypes under artificial *Striga* infestation.  
S.A.Olakojo; B.A.Ogunbodede, J.O.Makinde and M.O. Ogundiya  

Effect of increasing concentrations of sodium carbonate on pearl millet *Pennisetum americanum*  
G.M. Ali, J.C. Collins and T. McNeilly  

Rescue of multiple embryos in almond through *in vivo* micrografts  
Pedro Martínez-Gómez, Raquel Sánchez-Pérez, Federico Dicenta and Thomas M. Gradziel  

Harvest time residues of carbosulfan in brinjal fruits  
J.Rajeswaran, I.Merlinkamala, S.Chandrasekaran, R.Jayakumar and S.Kuttalam  

Rationale behind the use of insecticide mixtures for the management of insecticide resistance in India  
A. Regupathy, T. Ramasubramanian and R. Ayyasamy  

Occupational exposure to carbosulfan applied for the management of *Aceria guerreroensis* (Keifer) in coconut ecosystem  
T. Ramasubramanian, S. Kuttalam, S. Chandrasekaran and K. Ramaraju  

Effect of pretreatments on germination of seeds of the medicinal plant *Enantia chlorantha* Oliv.  
A. E. Gbadamosi and O. Oni  

Evaluation and selection of wheat germplasms suitable for drought conditions in Jordan  
Dhia S. Hassawi and Anjad Abu-Surhan  

Silver thiosulfate prolongs vase life and improves quality of cut gladiolus and rose flowers  
Abdulrahman I. Al-Humaid  

A lysimeter study of nutrient release, leaching losses and growth response of amaranthus resulting from application of inorganic and organic nitrogen sources,  
S.O Agele, S. Adeosun and D. Oluwadare  

Effects of different rooting media and auxin treatments on the rooting ability of *Ruepestris du Lot* (*Vitis rupestris*) rootstock cuttings  
Ali Sabir, Zeki Kara, Ferhan Kucukbasmact and Namik Kemal Yuce  

Tsetse and trypanosomiasis intervention policies supporting sustainable animal-agricultural development
